THE INDEMNITY 188UE.

Settled Yet.

PEKING, June 6 .- The Ministers have ceased to hold meetings, while making inquiries as to the desires of their respective Governments. The majority of the Ministers hold that Germany should 000,000 taels at 4 per cent interest. They also think that the withdrawal of Count von Waldersee and the German troops

Trouble beteween British and French soldiers at Tien-Tsin continues. Brigadier General Lorne-Campbel, in command of the British troops, and the French commander will use their utmost endeavors to prevent further friction.

CONFERENCE AT WASHINGTON. WASHINGTON, June 6 .- The Ambassadors from most of the European countries were in conference with Secretary Hay today, mainly because it was diplomatic day, which afforded an opportunity for discussing the stage of the Chinese negotiations. It is understood that the middle ground, or modus vivendi, as it is being referred to, concerning the form of paying the indemnity, is likely to be settled by a joint and several guaranty. This will be in complete accord with the American view that there should be no joint guaranty, in the sense of binding each Government to securing the payment of the entire \$337,000,000. It will be joint, however, in the formal aspect of being executed by all of the Powers jointly, at the same time, and probably by the same instrument. This instrument doubtless will include a provision by which each Government is to assume no liability beyond the amount of its own share of the indemnity, which, in the case of the United States, is limited to \$25,000,000.
